TESTIMONIAL

Anastacia Kgosi-Mookodi
Information Technology Specialist
De Beers Sponsored Student 1981 – 1984
Northern College – Kirklandlake, Ontario, Canada

Botswana diamonds have not only given me an opportunity to get an education overseas but to love where I live, in a peaceful and prosperous developing country. I have enjoyed raising a family and developing a career within the information technology discipline in the mining, utility, insurance and consultancy sectors in Botswana.

Twenty-two years later, the De Beers scholarship programme continues to educate Botswana, the citizens of Botswana.
